## WE ARE LOOKING FOR AN Engineer (Working Student)

Do you want to be part of a Deep Tech Startup and put your analytical skills to a test?

We are three talented and experienced founders creating a software to automate one of the last manual steps in engineering: functional safety analysis (FSA). FSA is mandatory in several industries, such as rail, medical devices, process, automotive or aerospace. Our Vision to enable engineers is EXIST funded and awarded as "Digital Innovation".

## YOUR TASKS

- Analyze safety-relevant norms
- Compare safety-relevant norms across industries
- Interview customers and experts

## YOUR PROFILE

- Startup mindset and hands-on spirit
- Matriculated student, preferably from mechanical or electrical engineering
- First working experience is advantageous
- Independent, structural, and analytical working style
- English proficiency

## WHAT WE OFFER

- Get a front seat in an EXIST financed Deep Tech Startup and be part of an ambitious team
- Insights in one of Germany's most active and innovative Startup ecosystem
- Table tennis and kicker included

## APPLICATION

Submit your application to [talents@modelwise.ai](mailto:talents@modelwise.ai).
